

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. DEED AND DECLARATION OF TRUST

Whereas, Through the benevolence of certain friends of the public charity founded and maintained by and represented in the Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, gifts of money have been devised and contributed towards and for an Endowment Fund, by the intent and purpose of which gifts there was imparted to same a trust character, demanding the perpetual preservation and security of the same, free and clear from any control, or use, or the liability of said gifts, otherwise than the income thereof should be and remain a permanent source and means of support of the said charity; and,

Whereas, The said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh has heretofore, notwithstanding said intent and purpose of said gifts, exercised a power of control, disposition and use of said gifts, incident to its possession thereof, whereby the same have heretofore been subjected to uses, risks and liabilities not contemplated or consistent with the objects, purposes and intentions of said donors, and the implied trusts imposes upon their gifts as aforesaid; and,

Whereas, The Board of Trustees, and the contributors of the said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, at their annual meeting, held April 9th, A. D. 1889, recognizing the said trust character of the said gifts, and also, that it is desirable that others, willing to make gifts of the said Endowment Fund, may be assured of their perpetual preservation and use, as intended by such donors, have resolved, that their proper officers shall in their behalf recognize and declare such a trust, and duly assign, set over and transfer all funds now remaining of such gifts, and property and securities, into which the funds

of said gifts are invested, and all right, title and interest therein, to the corporation, The Fidelity Title and Trust Company of Pittsburgh, in perpetual trust, for interest and income therefrom, for the regular and continued support forever out of the said Endowment, of the said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, the due acceptance and acknowledgement of said trust by the execution thereof.

Now, Know all Men by these Presents: That The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, in consideration of the premises, doth hereby assign, set over and transfer to the Fidelity Title and Trust Company all the funds and securities of the said Endowment Fund, consisting of:

One hundred shares of the capital stock of the Exchange National Bank of Pittsburgh.

A one thousand dollar mortgage bond for the Union Passenger Railway Company of Pittsburgh.

A bond and mortgage of John J. Brisbin to Frank Semple, for two thousand dollars, dated August 1st, 1888, and assigned to said Fidelity Title and Trust Company, as Trustees of said Endowment Fund.

A bond and mortgage from Thomas McKnight to the Fidelity Title and Trust Company for one thousand dollars, dated January 9, 1889, and now held by said Company in trust for said Endowment Fund.

And also one hundred and twenty-five dollars and two cents in cash, belonging to said endowment Fund.

The said stock, securities and cash representing moneys derived from the estates of Miss Jane Holmes and Mrs. Alice Schoonmaker by their several devices to the said fund.

The said stock, moneys and securities, and all right, title and interest therein, are hereby granted and assigned as aforesaid to the said Fidelity Title and Trust Company and its successors, in trust forever, and so received by that Company, as an Endowment Fund, which fund and any increase thereof by gifts hereafter made thereto, shall be preserved and invested, consistent with the purpose of such Endowment Fund, for a continuous and perpetual income for the uses of, and

payable to the said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, and not otherwise; accounts of which fund, and of the investments, and the interest and income thereof, shall be rendered by the said Fidelity Title and Trust Company to the Treasurer of the said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, upon due notice and demand from him.

And the said Fidelity Title and Trust Company hereby accepts the said trust of the said Endowment Fund, as herein intended and expressed, hereby agreeing to receive all future gifts and contributions to the same fund, and hold the same upon and subject to the same trust as is, by this declaration of trust, declared respecting said fund hereby granted and assigned to it.

And the said Fidelity Title and Trust Company further agrees that all investments or changes of investments of said Endowment Fund shall be made upon the advice and approval of the Executive Committee of the Board of Trustees of the The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh.

In Testimony Whereof, The said The Homoeopathic Medical and Surgical Hospital and Dispensary of Pittsburgh, and the said Fidelity Title and Trust Company, have hereunto affixed their several corporate seals, duly attested by their respective Presidents and Secretaries, this 9th day of April, A. D. 1889.

**FORTIETH ANNUAL REPORT OF THE EXECUTIVE
COMMITTEE**

Year Ending March 31st, 1906.

To the Trustees and Corporators:

For the fortieth time the Executive Committee presents its Annual Statement, and is prepared to congratulate the Trustees and Corporators upon the most successful year in the history of the institution:

It is evident that the prospect of having larger and more modern buildings in the near future has not interfered with the steady growth of our institution, in all its departments.

We have to admit that in some particulars our hospital is "out at the elbows" and in need of refitting, but we greatly hope to remove to our new quarters before any great amount of repairing is necessary, and we shall hail the day when we all, patients, nurses and doctors, escape the noise, dust and smoke incident to our present surroundings.

The Year's Record

There were admitted and treated in the hospital wards last year 3,609 patients, of which number 1,252 were pay and 2,357, or 65 per cent, were charity.

The increase over last year's patients treated in the hospital was 584. The total number treated in the hospital to date is 47,835.

Estimated by days, there were 42,091 hospital days—of which 16,047 pay and 26,044 charity.

The daily average of patients maintained the year round was 115, and the average time each patient remained was 11 7-10 days.

There were 82 births during the year and 176 deaths, a mortality of 4.88-100 per cent. This rate is very low compared with other general hospitals, and indicates that over 95 per cent of the sick and injured admitted into our wards, some 3,433 persons, were restored to health. It also indicated the amount of labor performed by doctors and nurses in the immediate care of this large number of sick people.

The ambulance responded to 458 calls during the year.

The dispensary department has continued its successful work in treating out-patients who did not require hospital care. In the general dispensary 13,461 patients applied for treatment, 3,580 of whom were new patients. There were 337 minor operations performed, 7,965 dressings made and 9,995 prescriptions issued.

At the Eye and Ear Dispensary there were 4,913 attendances, and 100 minor operations performed.

The total attendance for the year was 18,374, making a total to date of 463,147. The treatment of this large number of indigent sick is free, except a nominal charge for medicines, etc.

The Cost of Maintenance

The total cost of carrying on this work was \$65,185.22, which includes all supplies, furnishment and repairs.

Deducting from this the earnings of the Training School, Dispensaries and Ambulance, amounting to \$3,934.06, leave a net cost for maintenance of \$61,251.16.

Estimating upon the number of hospital days, 42,091, this indicates a net cost per diem for each patient of \$1.46, compared with \$1.55 last year. This is a lower rate than most general hospitals can show.

The Treasurer will give a more complete statement of the receipts and expenditures for the year.

The Training School

The work imposed upon our nurses the past year has been most exacting and arduous, so that the resources of our School have been taxed to the utmost. In this connection, your committee refers with much regret to the resigna-

tion of the Superintendent of the School, Miss Ida F. Giles, who reluctantly gives up her work in order to obtain a greatly needed rest. Miss Giles has served our institution with great fidelity and singleness of purpose, taking with her the unqualified respect of the Committee and the affectionate regard of her nurses.

Upon the recommendation of the Lecture Faculty and Superintendent, the Executive Committee has granted the Diploma of the School, together with its Badge, to the following named nurses: Miss Wilma Sophia Koesel, Miss Emma Estelle Krohn, Miss Alice Kuhn, Miss Laura Lee Moyes, Miss Edna Doris Williams, Miss Jane Burnadette Logan, Miss Rachel Taylor Hughes, Miss Mary Ellen Carroll, Miss Margaret F. Carson Carlyle, Miss Alice May Kittell, Mrs. Laura Quick Simmons, Miss Sarah Isabella Brown.

The Ladies' Association

In addition to the usual good work in and for the hospital, the Ladies Association last autumn carried to a most successful conclusion one of those enjoyable entertainments for which they are famous and which netted the hospital the handsome sum of nearly \$12,000. This goodly sum is to be devoted to the furnishment of the new hospital. To the Country Club, and especially the president, Mr. A. M. Jenkinson, our institution is greatly indebted for the success of this entertainment.

The House Management

Considering the great increase of work, with no increase of facilities, we may congratulate ourselves that the affairs of our institution have been conducted with so little friction and with such satisfactory results.

The Superintendent, House Staff, Engineer and Matron have had many difficult problems to solve, and our reports indicated that most if not all of these have reached a happy solution, inasmuch as we now close the most successful year in our history.

Your Committee begs to call attention to a very acceptable gift from Mr. William H. Barnes, now of Philadelphia, who for several years was president of the Board of Trustees. At the earnest request of the Chairman of the Committee, Mr.

Barnes has presented his portrait to the institution and with it a letter from which we take the liberty of making a brief quotation which indicates the high esteem in which he holds our hospital and its work. It is as follows:

"I appreciate the kindly compliment you make me in asking for my portrait. I can say, however, that my connection with the Hospital and Staff and valued associates, is one of the pleasant recollections of my busy days in Pittsburgh. My mind and heart at their best was attached to the work. I came to you and your confreres as the instrument of that rarely good man and friend, Mr. William Thaw. He was with you and your work, with his best intent and effort. Too busy to do all the detail, he selected me as his representative. This was a distinct compliment and confiding trust. Then you, Dr. Cooper of blessed memory, and others of the Medical Staff, working with you gave me most kindly reception, and we came together in earnest work and splendid results. It is because of all this that I take another view of the placing of my portrait in your hospital building—that you and those who may kindly recall me of those days may look at the portrait and take assurance of my most affectionate interest, past and present, in your work."

Your Committee feels sure that the Trustees, Corporators and other friends of our hospital will deeply appreciate the gift and the sentiments which accompany it

Respectfully submitted,

J. H. McCLELLAND.

Chairman Executive (House) Committee.

A. H. CHILDS,

Chairman Committee Ways and Means.

REPORT OF THE BUILDING COMMITTEE

April 10, 1906.

*To the Trustees and Corporators of the Homoeopathic Hospital,
Pittsburgh, Pa.:*

The Building Committee are pleased to report that they have been zealous in following out instructions of the Trustees given at their last meeting, and have plans for the general hospital practically completed, which have been thoroughly gone over by the Ladies' Advisory Committee, as well as the Medical Advisory Committee, and fully approved.

The system of heating and ventilating has not yet been determined.

We have now for sale the present property on Second Avenue, it not being in the hands of any one real estate agent, but open to any agent or private enterprise that may care to take the property.

It is the judgment of your Committee that we do not go ahead and make any contract for the new buildings until we sell the present institution, although, as already stated, we are practically in position to go ahead and make contracts at any time so far as plans are concerned.

It is with considerable regret that we have to report a large deficit in the amount required to complete the new hospital. As you are all aware, we own the beautiful site on Center Avenue running back to the railroad at Shadyside, with an L running into Aiken Avenue. This fine property cost us \$135,000, upon which we have paid \$125,000, leaving us in debt about \$10,000, which should be promptly paid.

We succeeded in securing from the State an appropriation of \$100,000 towards the ground and buildings, of which

\$50,000 has already been paid; the balance cannot be secured until we are in position to show contracts for the buildings.

We appeal to the Trustees, Medical Staff, and other friends of the Hospital to earnestly take hold of this work with a determination to secure the balance of the money necessary to complete this great enterprise.

Respectfully submitted,

ALEX. R. PEACOCK,

Chairman Building Committee.

REPORT OF THE PITTSBURGH TRAINING SCHOOL FOR NURSES

Homoeopathic Hospital

To the Executive Committee.

I beg to present the nineteenth Annual Report of the Pittsburgh Training School for Nurses.

On April 1st, 1905; the beginning of the fiscal year, we had thirty-seven pupils and two probationers. During the year sixteen young women came to us as probationers.

Out of this number, and including the two from last year, we admitted nine as pupils; four were refused. On March 31st, 1906, we close with thirty-four pupils and five probationers.

There were 61 lectures given with an average attendance of 27 nurses at each lecture, all nurses who could possibly be spared from the wards during that hour being compelled to be present.

The faculty and subjects assigned each remained the same as last year, and the full course of lectures have been given, the total number being as follows:

Dr. J. H. McClelland, Special Lecture on Ethics of Nursing	1
Dr. L. H. Willard, Dean....Sepsis, Asepsis and Antisepsis	7
Dr. C. P. Seip.....Bandaging	9
Dr. C. C. Rinehart.....Medical Nursing and Emergencies	6
Dr. J. B. McClelland.....Obstetrics	5
Dr. R. W. McClelland.....Anatomy and Physiology	5
Dr. C. H. Hoffmann.....Gynaecology	4
Dr. W. F. Edmundson.....Toxicology	3
Dr. W. W. Blair.....Sec. Ophthalmology	2
Dr. G. A. Mueller.....Otology, Rhinology, Larynology	1
Dr. E. R. Gregg.....Surgical Emergencies	5
<hr/>	
Total by faculty.....	49

We also had twelve others given by non-members of the faculty, as follows:

Dr. F. V. Wooldridge.....	Bacteriology	8
Dr. S. M. Rinehart.....	Feeding and Care of Infants	2
Dr. H. S. Nicholson.....	Hydro-Therapeutics	2

These lectures given by the last three named persons are of no small importance to our nurses, and being ably handled by those to whom the subjects were assigned, we would recommend that they be continued in the future.

Aside from the usual two lectures a week the class work has taken a great deal of time and attention, never less than two and sometimes as high as five classes per week conducted personally by the Superintendent of the School.

Early in the season Massage was taught to the best of her ability by the Superintendent of Nurses, a full course of instruction being given the Seniors and a part of the junior classes, as has been the custom heretofore.

We pause, before again speaking of dietetics, but will only say that while we have given up all hope of a practical diet kitchen while in the old building, yet we lay great stress on the need of one well equipped in the new, and hope your Committee may grant a post-graduate course in dietetics so that our nurses may come back and receive the instruction which they can not get at the present time.

Before leaving this subject, however, we would express our appreciation of the lessons given through the kindness of Mrs. Thaw, by Miss Elston, who is a good teacher, but theory without practice is always more or less of a failure in all departments of nursing.

Mrs. Thaw has however made the effort and provided for us as far as it was possible. Again we thank Mrs. Thaw, who is always a friend and benefactor.

There has been an unusual demand for nurses for special duty, so that in a few instances graduate nurses had to be called in, but insofar as we were able to accomplish the work ourselves we did it, and the income derived for such service is \$2,009.88. Needless to say that this sum of money does not by any means denote the amount of special work done, as

many patients requiring such care could not afford to pay. In one case alone two nurses were constantly on duty for six weeks without any remuneration to the hospital. Had this been a case where a bill could have been rendered, it would have been \$180 for nursing alone. Although this is large, yet it is only one case in many.

We owe a debt of gratitude to one who has in a practical way many times shown his friendship for our school. We speak of Mr. A. R. Peacock, who has provided us with a complete set of the stereoscopic Atlas of Anatomy. This is and will be prized not only by our pupils but also by our lecturer on Anatomy and Physiology as a great aid in his instruction on the subjects just mentioned. Mr. Peacock also furnished the music for our Christmas treat.

May we collectively thank many friends for small but much appreciated attentions shown our nurses by way of tickets to entertainments at different times and in different places.

Thirteen of our nurses have successfully passed their examinations. Some have almost and others entirely completed their time of duty in the school and we would now recommend them to your committee for graduation. Their names are as follows:

Miss Madge A. Izenour	Miss Jane B. Logan
Miss Wilma S. Joesel	Miss Rachel T. Hughes
Miss E. Estelle Krohn	Miss Alice Kittell
Miss Alice Kuhn	Miss Margaret F. C. Carlyle
Miss Laura L. Moyes	Mrs. Laura Q. Simmons
Miss Edna D. Williams	Miss Isabelle A. Brown

The graduation exercises authorized by the Executive Committee will be held in the Fourth Avenue Baptist Church, Fourth Avenue and Ross Street, on the evening of Thursday, April 12th, 1906, at 8 o'clock.

Not only the personal friends of the nurses, but friends of the hospital and the nursing profession at large are cordially invited to attend, and owing to the excellent talent secured for the occasion, we are quite sure the exercises will be both instructive and entertaining.

At this time I can make a criticism with the assurance to all that it is not selfish, but for the future good of our school, and I make it with the most kindly interest in my Alma Mater and the school of which I have been superintendent for almost nine years.

1st. Our school is not large enough. At least fifteen more pupils could be kept in constant employment, and with that number the work could be done in a much more satisfactory manner than it has been done during my administration and would eliminate many apparently just criticisms from those who are interested in us, but who in reality do not understand.

2nd. The Superintendent of your school should have more assistants. There should by all means be a graduate nurse in charge of the operating room, a graduate night assistant, and a graduate day assistant.

It is a physical impossibility for one nurse to personally oversee the work of forty nurses, arrange and place them all, be responsible for medical and surgical supplies, look after and be responsible for the care of on an average of 115 patients per day, attend to all the correspondence and books of the school, and conduct the class work, and do that work right.

We take occasion to criticise our own work, but we have done our best with the help we have had. Until two and a half years ago we had no help; since that time we have had one graduate nurse to whom we have given charge of the operating room. This was a great relief to the Superintendent, but there was still enough work left for at least three people.

3rd. There should be ward maids to relieve the nurses of much that unfits them for aseptic work. This to our minds is a most important feature which has not been given the consideration which it deserves.

4th. Our school should be placed on a more substantial educational basis. It has been the regret of the Superintendent all the way through that this most important part of the work has had to suffer because there were not enough nurses to do the work, or they could not be given time for study. This should not be, but under the existing conditions it is impossible to do otherwise.

There should be enough nurses so that there could be a certain allotted time given each nurse for study and recitation instead of taking her resting hour for that purpose.

Statistics show that our nurses are doing in many cases twice the work that nurses in hospitals of similar size and conditions. Our rule has been, take care of the patients primarily, and the appearance of the house, the studies, the recitations and recreation, of which there is very little, secondarily.

We could have made a much better impression with the public had we reversed the order and had appearance of the house come first. But our first duty was always the care of the sick and suffering. We are proud of our nurses and the work they have done. They have had tasks imposed upon them even to the breaking of their health, yet they do not complain. They have been faithful to duty.

As this is to be the farewell report of the present superintendent of the Training School, we would like to express in a measure the high esteem in which we hold your honorable Committee. The work here is hard, much harder perhaps than any of your committee can conceive, but the burden has been lightened by the fact that we have as our Executive Board a body of men who are perfectly just.

Believing that no other hospital in the country has a better, we congratulate this institution upon having just such a committee.

To the many others who have shown us kindnesses while in the position we are now leaving we extend our heartfelt thanks.

Respectfully submitted,

IDA F. GILES,

Supt. of Training School.

REPORT OF THE LECTURE FACULTY

To the Executive Committee of the Homoeopathic Medical and Surgical Hospital of Pittsburgh:

The Lecture Faculty appointed last year makes the following report.

The course of lectures given was thought by the faculty to be incomplete without lectures on the care and feeding of infants, as this is a subject of vital importance.

In accordance with the suggestion of the Faculty, your committee appointed Dr. S. M. Rinehart, who has given very acceptable lectures on this subject.

In regard to Baths or Hydro-Therapeutics, a suggestion was made that, whilst Dr. C. C. Rinehart recommended baths in his excellent lectures on Medical Nursing and Emergencies, he did not have the time to specify the different kinds used or the manner in which they should be given, so Dr. H. S. Nicholson gave lectures on this subject which were very useful. Therefore, we would suggest that these Doctors who have performed this work should be made members of the Lecture Faculty.

Mr. Peacock has aided the Lecture Faculty on Anatomy by giving to us a complete set of the Stereospic Atlas of Anatomy, which is appreciated not only by the Faculty but more especially by Dr. R. W. McClelland, the Lecturer on Anatomy.

The lectures given are as follows:

Dr. L. H. Willard, Dean	Sepsis, Asepsis and Antisepsis	7
Dr. C. P. Seip	Bandaging	9
Dr. J. H. McClelland, Special lecture on	Ethics of Nursing	1
Dr. C. C. Rinehart	Medical Nursing and Emergencies	6
Dr. J. H. McClelland	Obstetrics	5

Dr. R. W. McClelland	Anatomy and Physiology	5
Dr. C. H. Hoffmann	Gynaecology	4
Dr. W. F. Edmundson	Toxicology	3
Dr. W. W. Blair	Sec. Ophthalmology	2
Dr. G. A. Mueller	Otology, Rhinology, Larynology	1
Dr. E. R. Gregg	Surgical Emergencies	5
Total by Faculty.....		48

We also had thirteen other lectures given by non-members of the Faculty, as follows:

Dr. R. T. White.....	Electro-Therapeutics	1
Dr. F. V. Wooldridge	Bacteriology	8
Dr. S. M. Rinehart	Feeding and Care of Infants	2
Dr. H. S. Nicholson	Hydro-Therapeutics	2

The Superintendent gave instructions on Massage and Miss Elston gave cooking lessons.

We would say here, on behalf of the Faculty, that our lectures have been closely attended and that we can heartily recommend for their Diplomas and Badges the class already spoken of by Miss Giles, our Superintendent, and we would also say that we regret the retirement of Miss Giles. Her classes have ever been in readiness for the lectures, and from the intelligent interest displayed we know she has performed her duties most faithfully.

Respectfully submitted by, .

L. H. WILLARD, M.D.

Dean of Faculty.

W. W. BLAIR, M.D.

Secretary.

REPORT OF THE PATHOLOGIST FOR THE YEAR ENDING
APRIL, 1906.

To the Medical Board:

I take pleasure in presenting the following report of the work done in the Pathological Laboratory of the Hospital for the year ending April 1st, 1906.

During the year the Laboratory has been opened every weekday and holiday, and during this time the Pathologist has been on duty every day.

A glance at the total number of analyses will show the marked increase over last year's work. The total analyses last year were 1,147. This year they are 2,008, showing an increase of 40%. Still more marked is the increase in sterilizations of vasoline, cocaine, medicine droppers, etc., for use in the house. Last year there were less than half as many as were used this year.

A new departure since last April has been made in the work, that of the bacteriological examination of milk and water. Pittsburgh has been having a serious epidemic of typhoid fever during 1905, and the boards of health of a number of the surrounding towns have called upon the laboratory for assistance. Many analyses have been made, including city waters, spring waters, commercial bottled water, and also many analyses of the sterile water from the operating room of the hospital.

Eight lectures and laboratory sessions have been given to the nurses during the year, also a thorough examination in "scrubbing up," from which cultures were taken as proof of asepsis.

The work has increased to such an extent that we feel it will be necessary soon to have a Pathologist who shall devote all his time to this work.

It is a pleasure for the department to express its sincere appreciation of the favors received from so many sources, and for the unflinching courtesy of all.

FREDERICK. V. WOOLDRIDGE.

Our expenses for maintenance and our ordinary income have been very nearly the same as last year, but the Ladies' Association has given us \$5,600 more than last year, and the net returns from the Training School for Nurses shows an increase over last year of about \$1,000, so that we are able to close the year with an indebtedness for supplies of \$11,234.08 as against a debt last year of \$15,825.49, a reduction of \$4,591.41, besides paying balances due for improvements made in 1903, amounting to \$1,786.40.

It is with great pleasure that I am able to omit one item which since 1884 (for twenty-two years) has been a constant factor at the close of the Treasurer's Report, viz. "Balance due on old Purchase Money Mortgages," and can state that this

item of \$19,000 which has been a burden upon the shoulders of your Trustees all these years, was finally paid and the last of the mortgages satisfied of record during the past week.

Of course, this does not mean that we are free of debt, or ever shall be. It is not in the nature of such an institution as ours, in such a community, to pursue the prudent business policy of living within its income. It was never intended that we should do so. Such a work is intended to exercise faith as well as charity, and trains us to go ahead in the relief of the suffering, and to have faith that the means will in some way be supplied.

During the past year we received one addition to our Endowment Fund in a legacy of \$2,000 from the Estate of Miss Mary E. Moorhead, one of the Charter members of the hospital, and intimately associated with our work since 1866. Of this we received \$1,900, the State of Pennsylvania taking the other \$100. This brings our Endowment Fund to \$171,966.40, and we expect to receive during the present year several bequests under the Wills of friends of the hospital lately deceased, which will bring the amount up to over \$200,000.

Respectfully submitted,

FRANK SEMPLE,

Treasurer.

**ANNUAL REPORT OF THE LADIES' ASSOCIATION OF THE
HOMOEOPATHIC MEDICAL AND SURGICAL
HOSPITAL OF PITTSBURGH, PA.**

The true measure of the achievements of any hospital is found by comparing the current year with that of preceding years, but detailed accounts belong to the Executive committee, upon whom the responsibility of the entire system devolves.

While the report of the Ladies' Association is not a statistical record, it can refer to work accomplished, that probably will count, even in the absence of any reference having been made to the results of skilled medical or surgical effort, or to call attention to the outlay or income of the hospital for the past year.

The entire house, every month, is carefully investigated by two managers, who are appointed by the President, and, as a rule, spend hours examining every detail of the work, and they render a statement at the meeting following their appointment, and all matters of special interest are referred to the Executive Committee.

The Superintendent has been untiring in his endeavor to maintain the true standard of the hospital, and the efforts of the Matron have been appreciated by the Ladies' Association, as the close proximity of the hospital to mills and factories causes constant vigilance upon her part.

We gratefully acknowledge the support given by the pastors of the various denominations, and in behalf of the patients who have been encouraged and benefited by their services we express sincere thanks.

Most welcome and opportune gifts were received from the several branches of the Needle Guilds of America, and while we are held in remembrance by numerous friends who give

continuous gifts and attentions, to none are we indebted more than to the women of the First Presbyterian and Third Presbyterian churches of Pittsburgh; also to the Young Ladies' Band of the North Church, and for sewing done by the Public Wash and Bath House Society. We express our thanks to the Ladies of Christ Episcopal Church of Allegheny for a valuable contribution of clothing.

Mrs. Omar S. Decker continues to provide for the Children's Ward. She added to her many gifts new articles made by the Sewing Girls' Society, and we refer gratefully to the contributions from the Hazlewood Presbyterian Church, from Calvary Episcopal, and the Little Girls' Society of Calvary, also to Ingram and Crafton Guild of the Church Home, and the First Presbyterian Church of Allegheny.

We acknowledge with gratitude the services rendered by Miss Bingaman, our faithful Treasurer.

Mrs. Willard, continues her Bible reading, and time alone will reveal the good she has done.

The Hospital News is ably edited by Dr. George B. Moreland, and it keeps our patrons, each month, directly in touch with the work, and it is a pronounced factor in the welfare of the hospital.

The Ladies' Association regretted that Miss Giles found it necessary to tender her resignation as Superintendent of the Training School, owing to her impaired health. A letter from the Ladies' Association was tendered her, assuring her that the relations existing between them had always been pleasant, and that their best wishes would follow her in her future undertakings.

No department of the work is more worthy of commendation than the Training School. Our nurses, in no other calling, could find the varied hues of life so blended, unprejudiced by the color or national characteristics; they have endeavored to minister faithfully to their suffering guests.

The Fruit and Flower Mission is a center from which much good radiates, and they remember the patients especially at Easter time.

We take this opportunity to thank the friends who so generously provided for Thanksgiving, and also for the contri-

butions toward the Christmas entertainment, a printed list of which will be found in the Hospital News.

The Ladies' Association refer with gratitude to the members of the Country Club, for having placed at its disposal the Club House and beautiful grounds for a Fair given for the benefit of the hospital, on the afternoons and evenings of October 19th and 20th. The Board of Managers and the other hospital authorities unite in expressing their sincere thanks to the President, Mr. A. M. Jenkinson, for his efforts in behalf of the hospital, and for the part taken by the Club members, who made it possible for the Ladies' Association to record such success. The Chairman of the different booths, and their aids, are gratefully remembered for their enthusiastic support and for the untiring energy displayed in carrying on the work.

Special thanks are due the President of the Ladies' Association for manifold gifts to the hospital. Mrs. Thaw having pronounced ideas concerning chancing or raffling, proposed to contribute one thousand dollars toward the fair if all such features were eliminated. Mrs. Westinghouse offered to give one thousand dollars also, with the same proviso. Their contributions were most gratefully accepted, and we take this opportunity to express sincere thanks to our most generous donors.

Mrs. Collins and Mrs. Willard were appointed to audit the accounts of the Treasurer, and certified to their correctness.

The success of this hospital is mainly due to the exhaustive labors of the Executive Committee, and to the generous friends who have made this Home possible for the sick and afflicted, this report is

Respectfully submitted,

MRS. GEORGE L. MCCOY,

Secretary.

THE TRAINING SCHOOL COMMENCEMENT

Pittsburg, Pa., May 11, 1906.

The Nineteenth Annual Commencement of the Training School took place in the capacious auditorium of the Fourth Avenue Baptist Church on the evening of the twelfth of April, 1906.

Mr. Wm. Metcalf, President of the Board of Trustees of the Hospital, was in the chair; members of the Board, of the Lecture Faculty, of the Hospital Staff, and the graduating class, occupied the stage. Prominent place also was given to the officiating clergyman, the orator of the evening, and the soloists who furnished the music, the latter by the kindness of Mr. A. R. Peacock.

The following program was carried out, and was enjoyed by the large audience gathered for the occasion.

INVOCATION.....	<i>Rev. Warren G. Partridge</i> Pastor Fourth Ave. Baptist Church
MUSIC.....	<i>Toerge's Orchestra</i>
REPORT.....	<i>Dr. L. H. Willard</i> Dean of Faculty
SOLO.....	<i>Mr. Baxter</i>
ADDRESS.....	<i>Hon. John Francies</i>
MUSIC.....	<i>Toerge's Orchestra</i>
AWARDING DIPLOMAS.....	<i>Mr. William Metcalf</i> Pres. of the Hospital Corporation
PRESENTATION OF BADGES.....	<i>Dr. J. H. McClelland</i> Chairman of Executive Committee
SOLO.....	<i>Mr. Baxter</i>
VALEDICTORY.....	<i>Dr. E. R. Gregg</i> of the Faculty
BENEDICTION.....	<i>Rev. J. D. W. Heazleton</i>

The music was particularly fine as rendered by Mr. Baxter, Miss Price, and Toerge's Orchestra. Mr. Metcalf was as usual

very happy in his introductory remarks, and the address by the Hon John Francies was interesting and eloquent.

In addition to the presentation to the class of Diplomas and Badges, Miss Giles, the retiring Superintendent of the Training School, was presented with a surprise in the shape of a special badge in recognition of her good work in the school.

The President announced that this was a particularly fine class of graduates, consisting of the following:
